Sr. Full Stack Developer

About Outshade

Outshade is a prominent web and mobile app development company with a strong presence across Asia, Europe, the Middle East, and North America. We specialize in delivering innovative digital solutions that empower businesses to thrive in today's competitive market. Our team of skilled professionals is dedicated to excellence, creativity, and client satisfaction, ensuring the successful delivery of high-quality projects.

Position Overview

Outshade is seeking a talented and experienced Full Stack Developer to join our dynamic team. This position offers an exciting opportunity for individuals passionate about software development to contribute to the creation of cutting-edge web and mobile applications. The ideal candidate should have a strong background in both front-end and back-end development, excellent problem-solving skills, and a commitment to delivering high-quality solutions. This is a full-time position, and the candidate should be willing to commit to a minimum duration of 1 year with Outshade.

Key Responsibilities

- Collaborate with cross-functional teams to understand project requirements and translate them into technical specifications.
- Develop responsive web applications with a focus on both front-end and back-end functionality.
- Implement user interfaces using modern web technologies such as HTML5, CSS3, and JavaScript frameworks (e.g., React, Angular, Vue.js, Express).
- Build and maintain server-side components and APIs using languages such as Node.js & PHP. The candidate should be good with REST API's and usage of Postman as well.
- Build and management database components using languages such as MySQL, PostgreSQL, MongoDB.
- Write clean, efficient, and maintainable code following industry best practices and coding standards.
- Conduct code reviews, debug issues, and troubleshoot technical problems to ensure the quality and performance of applications.
- Stay updated on emerging technologies and industry trends, and contribute innovative ideas to enhance development processes and solutions.
- Participate in code reviews, provide constructive feedback, and mentor junior team members.

Requirements

- Bachelor's degree in Computer Science, Software Engineering, or related field.
- Proven experience as a Full Stack Developer with at least 2 years of experience.
- Strong understanding of web development fundamentals, including HTML, CSS, JavaScript, and RESTful APIs.
- Experience with front-end frameworks such as React, Angular, or Vue.js, and back-end frameworks such as Node.js, Express, or Laravel.
- Proficiency in one or more programming languages, such as JavaScript,
